Dear Mr. Levy:

On behalf of NESA's board, I would like to congratulate you for the realization of the NESACARD which you presented the first time during our board meeting. We at the NESA are honored to continue working with you and hope that together we will be able to add value to the future of oncological patients.

We appreciate your efforts and the positive way in which you present our academy a lot. We look forward to long years of relations and cooperation and wish you a lot of success.

Best regards,

Michael Stark
